International Finance Week **10th edition**

Case sustainable finance
A challenge in FINANCE !

Leuven

7 March - 11 March 2022

Outline of the programme

The main target of this week is to let you work in mixed international groups on a subject in finance. It makes you think and communicate in another language. In this way you broaden your practical knowledge of languages and culture.

We form groups of people with different nationalities. At the end of the week the groups give a presentation within their group of the work they have achieved.

We work on cases related to sustainable finance. Some guest lectures are organized. Social and cultural activities are organized to allow you to meet your fellow students from other countries.

Case sustainable finance

Sustainability is becoming more and more important. But how does this impact the financial world? During this week we will work on cases in which we will reflect on sustainability topics.

Crew

The crew consist out of several students of UC Leuven-Limburg. They will contact you to give information prior to arrival: e.g. information about the youth hostel, train schedules, bus services, dress code for dinner and comfortable clothing for the sports activity ...
