Faculty of Management & Technology
Academic year 2017-2018

FALL PROGRAMME

TARGET GROUP

The **fall semester** is aimed at **business students** with a **specialisation in Marketing**. Students mainly follow courses in the 2nd year of the BME-programme (Bachelor of Business Management-Marketing in Europe) with a focus on marketing topics. Students are advised to follow 30 ECTS credits. All courses in this programme will be taught in English. Please take into account that a **beginner's level of English is not sufficient** (preferably B2) to follow the courses and to take the exams. The number of Exchange students enrolled in this programme is limited.

INTRODUCTION WEEK

The programme starts with an introduction week. This week is organised by the UC Leuven-Limburg for all the international students who attend courses at the different departments of the UC Leuven-Limburg. It is meant as a first introduction to the Dutch language and it also creates possibilities to socialize with international and local students. Meanwhile the students also have the opportunity to look for accommodation.

COURSES

After the introduction week the students follow courses during 13 weeks. These courses are largely organised by the **Faculty of Management and Technology**. One course (Europe in 936 minutes) is organised by the UC Leuven-Limburg for all students (gOPO).

Students who attend courses at the Faculty of Management and Technology, have a wide range of subjects (see overview of the courses). The time schedule of the courses will be available at the beginning of the semester. Some courses might be scheduled at the same day/time. In that case, you can select another course at the beginning of the semester.

Most of the courses are build up in the form of interactive coached self-teaching. This means that the subject matter of these courses will not only be acquired by lectures but also by self-study supervised by the lecturer.
