NOT INVENTED HERE

The lessons from other sectors

Where can a hospital apply principles from the airline sector?
How can a car manufacturer use tools from the video game industry?
What can an event organiser learn from the railways?

Waarom?

Waarom?

Grenzen tussen sectoren vervagen (gezondheid, onderwijs, energie …)
Mega impact technologieën (IoT, Big Data, 3D printing, Drones …)

Waarom?

Grenzen tussen sectoren vervagen (Tesla)

disruption often comes from outside your sector

@7ideas

ELECTRICITY MAY BE THE DRIVER. One day your car may speed along an electric super-highway, its speed and steering automatically controlled by electronic devices embedded in the road. Travel will be more enjoyable. Highways will be made safe—by electricity! No traffic jams . . . no collisions . . . no driver fatigue.

Reinventing multifunctionality

Combining goals, sharing means, linking interests

Dutch **'system-thinking'** delivers holistic, adaptive, scalable, cost-effective solutions across many sectors

Glowing Lines

Glow-in-the-dark lining absorbs energy during the day and glows in the dark. The lining emits light for as long as ten hours. A safe and sustainable alternative to conventional lighting for dark roads.

Dynamic paint

Temperature-controlled marking lights up and becomes transparent again, depending on temperature. The marking warns road users when the road deck can be slippery. Drivers experience direct interaction with the road deck.

Electric Priority Lane

Induction charging offers electric cars the possibility to charge themselves while driving. Electric priority lanes stimulate sustainable transportation.

Mooie of idiote vragen

Waarom kan je op TV stemmen voor je favoriete idool en moet je bij verkiezingen naar een stemhokje?
Waarom kan je een matras 30 dagen op proef testen maar kan je niet in een toekomstig huis proefslapen?
Waarom wordt een auto slechts 3 uur per dag gebruikt?
Waarom kiest de slimme thermostaat niet meteen de goedkoopste of duurzaamste energieleverancier?
Waarom kunnen voetballers gemakkelijk van team wisselen en is dit voor docenten in het onderwijs moeilijk?
Waarom is er een vervaldatum voor voeding maar niet voor regels / wetten?
Waarom is er een jaarlijkse autokeuring en geen periodieke medische controle?

IT'S NOT SURVIVAL OF THE
FITTEST
IT'S SURVIVAL OF THE MOST
FITTING

Toen Google in 1998 gelanceerd werd, waren er al 20 andere zoekmachines op de markt.

OM DENKEN

Intrigerend feit

Google was late to search.
Facebook was late to social networking.
Apple was late to the MP3 Player.

Where would we be if they listened to
everyone who said they were too late?

It's *never* too late.
Just do it better.

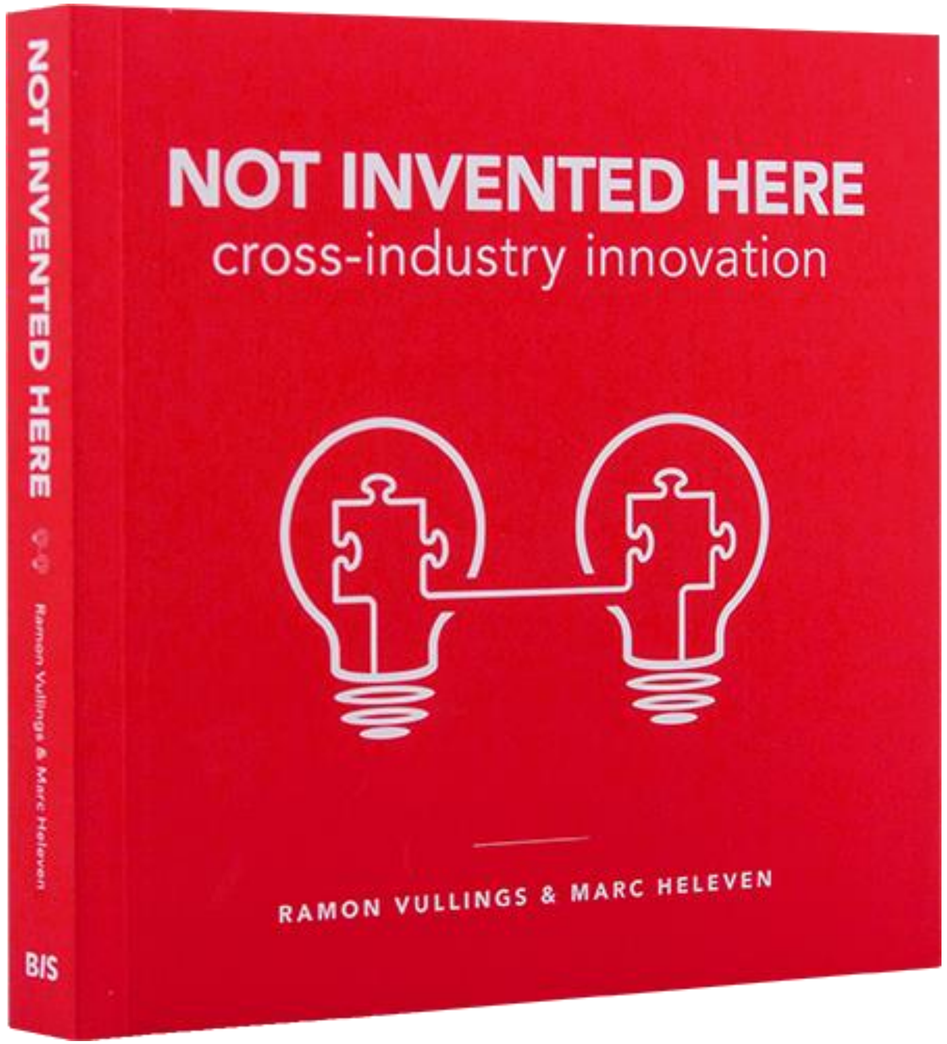
Kortom

1. **De meeste disruptieve innovaties komen van buiten uw sector**
2. **Iemand anders heeft uw probleem al opgelost**
3. **Waar zoeken (bedrijven, sectoren, BMI, …)**
4. **Tactiek: copy adapt paste**
5. **Strategie:** concept – combine – create
6. **Het begint met juiste vragen** (concept)
7. **Alles is LEGO** (combine)
8. **Survival of the most fitting** (create)



Dank u!
